Energy and Water Nexus

June 24, 2019

Want In On The Action?

Sam Cramer, Senior Program Manager at the National Association of State Energy Officials is the Opening Keynote Speaker for the 8th Annual ESC Market Transformation Conference in Denver (Aug 21-23). Mr. Cramer is the author of the report, "[Beneath the Surface: Opportunities and Strategies to Improve the Energy Performance of State Water Conveyance, Treatment, and Irrigation Systems.](#)"

The report was supported by the U.S. Department of Energy and is part of a white paper series examining the energy and water nexus. *Beneath the Surface* explores the nexus from the perspective of water treatment, conveyance and irrigation systems. It was prepared to assist State and Territorial Energy Offices in their efforts to examine, understand, and address the energy performance of water infrastructure in their states and communities.

The Opening Keynote (10:40 to 11am, August 22) launches the conference main sessions following a morning of workshops hosted by the ESC and the Colorado ESC Chapter.

Conference [Registration](#) is now open and [sponsorship opportunities](#) are available.

To make hotel reservations for the Curtis Hotel in downtown Denver and secure the special ESC room rate for reservations between August 21 and August 24, please click the [Energy Services Coalition-Reservations Link](#) for assistance.
